

PURPOSE

COMPREHENSIVE IMMIGRATION REFORM

Comprehensive Immigration Reform (CIR) accepts the desire to manage population inflows and outflows. At the same time, it seeks to respect the dignity and contributions of those who have immigrated to this country, whether or not they have met the requirements and procedures for entry and/or residence.

The issues are huge, and here we hope to give you ready references to the debate and to the reasons and means for you to advocate for comprehensive immigration reform.

EPISCOPAL CHURCH POLICY & ADVOCACY

The Episcopal Church,
Episcopal Public Policy Network:
English & Spanish

"represent the social policies of the church established by General Convention and Executive Council," including immigration and other issues of social justice. News, information, alerts.
